

Who We Are

Created by Congress, in 1971, the mission of the Area Health Education Centers (AHEC) Program was to enhance access to quality healthcare by improving the supply and distribution of health care professionals through community/academic partnerships. The strength of the program is directly related to the establishment of strong local centers which address the needs of the local communities. Each center provides basic services, including recruitment and retention of health professionals in underserved areas, training of health professions students and developing health careers opportunity programs for local youth.

Catskill Hudson AHEC is sponsoring this EMS Leadership Academy as a means of improving recruitment and retention of pre-hospital care providers.

To learn more about Catskill Hudson AHEC, please visit our website or contact us via phone or email.

What is the EMS Leadership Academy?

Administrative tasks and personnel management are among an EMS administrator's central responsibilities. Professional development efforts in areas like administration, supervision, public relations and budgeting receive little attention. These skills and concepts are critical to every EMS service's long-term success and role as a community caretaker. In response, Catskill Hudson Area Health Education Center (Catskill Hudson AHEC), in concert with a number of EMS Providers, has custom designed this EMS Leadership Academy for EMS officers and other first responders. The program presents a learning experience tailored to EMS providers by experienced leaders in EMS.

Who Should Enroll?

The EMS Leadership Academy is for EMS captains, officers and others in or about to be placed in a position of leadership in his or her EMS agency.

Topics and Speakers

- **Personnel Management: Balancing Salaried and Volunteer Personnel in a Combination Department: A Growing Trend**
Robert Delagi, MA, NREMT-P
- **Conflict Resolution**
